

UNI-2168A INFRARED THERMAL IMAGER

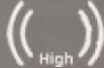

- Fast high temperature tracking
- 2.8 inch TFT screen
- Infrared resolution: 80x60
Frame rate: 9Hz
- Temperature measurement range:
30°C~45°C (86°F~113°F)
- Best test distance 1M
- Accuracy: $\pm 0.5^{\circ}\text{C}$
- Custom high and low temperature limit alarm indication
- Built-in buzzer sound alarm
- Swatches: White Hot, Red Hot, Ice Blue, Rainbow, Iron Red
- Take photos and save photos to SD card (16G)
- PC report software (report can be exported)
- Rechargeable lithium battery with Type-C USB interface
- Tripod mounting hole 1/4 inch connector

Measurement range: 30°C~45°C

Accuracy: $\pm 0.5^{\circ}\text{C}$

 Uncooled focal plane sensor	 High and low temperature measurement	 Visual defects	 Adjustable emissivity	 Rechargeable lithium battery
30°C ~ 45°C Temperature range	80 X 60 Thermal imaging resolution	 High and low temperature sound LED alarm	 Type-C USB charging	 Flashlight function

All specifications are subject to change without prior notifications.

UNI-2168A INFRARED THERMAL IMAGER

5 Swatches Choice

Rainbow

Iron Red

White Hot

Red Hot

Ice Blue

SPECIFICATION

UNI-2168A

Sensor	Uncooled focal plane
Temperature range	30°C~45°C / 86°F~113°F
Resolution	0.1°C
Accuracy	±0.5°C / ±0.9°F
Best test distance	1m
Response time	≤500ms
Thermal imaging pixels	80×60 (4800)
Pixel size	17μm
Display resolution	320×240
Infrared spectrum band light (FOV)	8~14μm
(IFOV)	51° × 38°
Thermal imaging sensitivity	11mrad
Frame rate	≤150mk
Image mode	≤9Hz
Swatches	Thermal imaging
Communication	White hot, red hot, ice blue, rainbow, iron red
PC Software	Type-C USB
Image format	YES
Battery	BMP
	Li-ion 3.6V/5000mAh
	Rechargeable lithium polymerbattery
Auto shutdown	(5mins, 10mins, 30mins, OFF) Default 30 min
Usage time	Not less than 6 hours
Charging time	About 4 hours
Charging voltage/current	5V/2A
Storage	Micro SD
Product size	236mm x 75.5mm x 86mm
Display type	2.8" TFT LCD
Temperature Display	Center point temperature measurement and high temperature tracking
Button	10 buttons (power, camera, return, left and right up and down, navigation, SET, picture tour, LED lighting key)
Storage temperature	-20°C~60°C (-4°F~140°F)
Operation Temperature	15°C~30°C (59°F~86°F), <85% RH
Altitude	Not more than 2000M

High temperature sound + LED light alarm

The high temperature alarm value can be customised to be set to 37.2°C. For the temperature value ≥37.2°C, it will flash a light prompt, the screen high temperature alarm prompt, the overtemperature picture is automatically saved, and the voice overtemperature alarm prompt can also be realized, which can effectively help fast screen fever personnel.

High temperature flashing notification

Temperature settings

High : 37.2°C

Low : 30.0°C

The temperature eye function of high temperature alarm and low temperature alarm can be set according to the actual application scenario

Center point marking and full-screen automatic tracking of high and low temperatures, while displaying temperature

The screen shows a high temperature message

Buzzer Alarm
